Where moms and people who love them go to change our world

Dear Energy and Commerce Committee Members,

Across the country, women's reproductive rights are under attack — now more than ever. That's why we're asking members of Congress to STOP these plans to roll back our right to reproductive health and freedom once and for all with the Women's Health Protection Act (S.1645 / H.R. 2975).

12,527 supporters from around the country, including your constituents, signed our open letter to urge you to the Women's Health Protection Act (S.1645 / H.R. 2975). This piece of Federal legislation would protect access to abortion care from state-level bans and medically unnecessary restrictions that are currently reducing or eliminating access to care across the country.

The letter your constituents signed reads:

As one of over a million members of MomsRising, I am writing to ask that you support the Women's Health Protection Act (WHPA)! Since 2011, hundreds of laws have been passed across the country to regulate and restrict abortion access.

This must stop.

Anyone who needs an abortion in the United States, deserves quality, affordable medical care, and a relationship with their health care provider that is free from government intrusion. The WHPA protects these rights: Equal access to abortion, everywhere for everyone. Please support the WHPA!

Please feel free to reach out to me directly if you have any questions.

Sincerely,

S. Nadia Hussain
